SHARE PRICE UPDATE

Lynas Corporation (ASX:LYC, OTC:LYSDY) notes that there has recently been a change of government in Malaysia, and that this may have influenced recent changes in the share price. We look forward to working with the new government. We believe that the election result is the main influence on the recent changes in the share price (which began last Thursday) rather than individual media articles.

A recent article in the Star Online referred to environmental monitoring, residue management and related aspects of our plant in Malaysia. Our operations are independently measured and monitored. We have been regularly reviewed and found to be compliant, including at the time of our most recent licence renewal in September 2016. We are very transparent in providing data to regulators and to the public, including via our website www.lynascorp.com. We will continue to provide information on a transparent basis.
