UPDATE ON REGULATORY MATTERS IN MALAYSIA

Lynas Corporation Limited (ASX:LYC, OTC:LYSDY) provides the following update in relation to the solid residue known as NUF that was referred to in the company's ASX announcement dated 17 October 2018.

Lynas has previously submitted an Action Plan for the Lynas Malaysia plant to be licensed as prescribed premises for the management and disposal of NUF. The regulator has confirmed that it is considering the Lynas application in accordance with applicable legislation. Lynas is in the process of obtaining the additional documentation required to support the application, including an Environmental Impact Assessment and approval from other relevant authorities.

In the meantime, Lynas has been granted an extension of the temporary permission to store NUF at the Lynas Malaysia site.

For all media enquiries please contact Jennifer Parker or Lauren Stutchbury from Cannings Corporate Communications on +61 2 8284 9990.
